STEP 2: You will be prompted to SIGN UP/SIGN IN. **Sign up using ONLY the email address you used to register for this program. Your attendance in the program will not be recorded if you use a different email address to sign up/sign in.**

STEP 3: As we have already provided your registered email address exclusive access to your Virtual Internship Hub, you will be prompted to **Sign In** by resetting your password. To reset your password, click on **Forgot Password**.

STEP 4: Enter your registered email address and click on ‘**Email Reset Link**’. A password reset link will be sent to your registered email address.

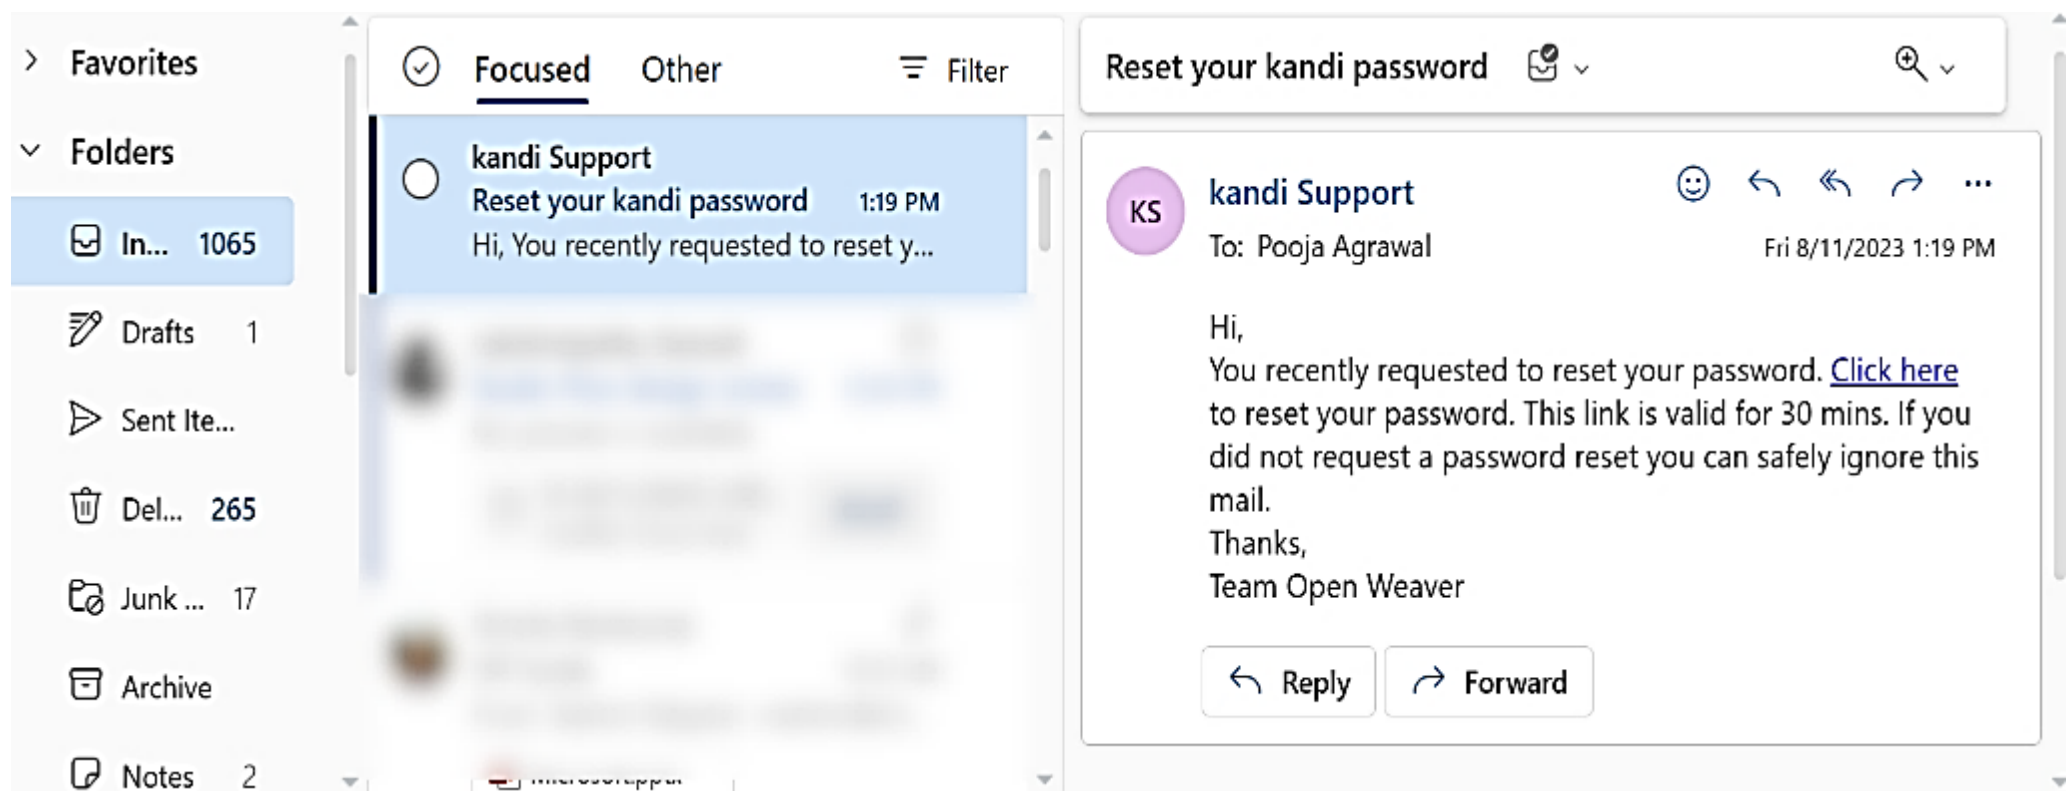

This screenshot shows the 'Forgot your Password' page on the Kandi website. The top navigation bar includes links for OpenWeaver, kandi, and Community, along with 'Sign in' and 'Sign up' buttons. The kandi logo is on the left, and a search bar with the text 'Search for Code Snippets, Libraries, Kits' and a 'Find' button is in the center. To the right of the search bar are links for 'Explore' and 'My Space(0)'. The main heading is 'Forgot your Password'. Below it is a label 'Your Email' above a text input field containing a redacted email address. A blue button labeled 'Email Reset Link' is positioned below the input field.

This screenshot shows the confirmation page after a password reset request. The top navigation bar is identical to the previous screenshot. The main heading is 'Forgot your Password'. Below it is the text 'Check your email' followed by a message: 'We've sent you an email with a link to reset your password. Remember to check your spam inbox if you can't find it.' At the bottom is a blue button labeled 'Go to Sign in'.

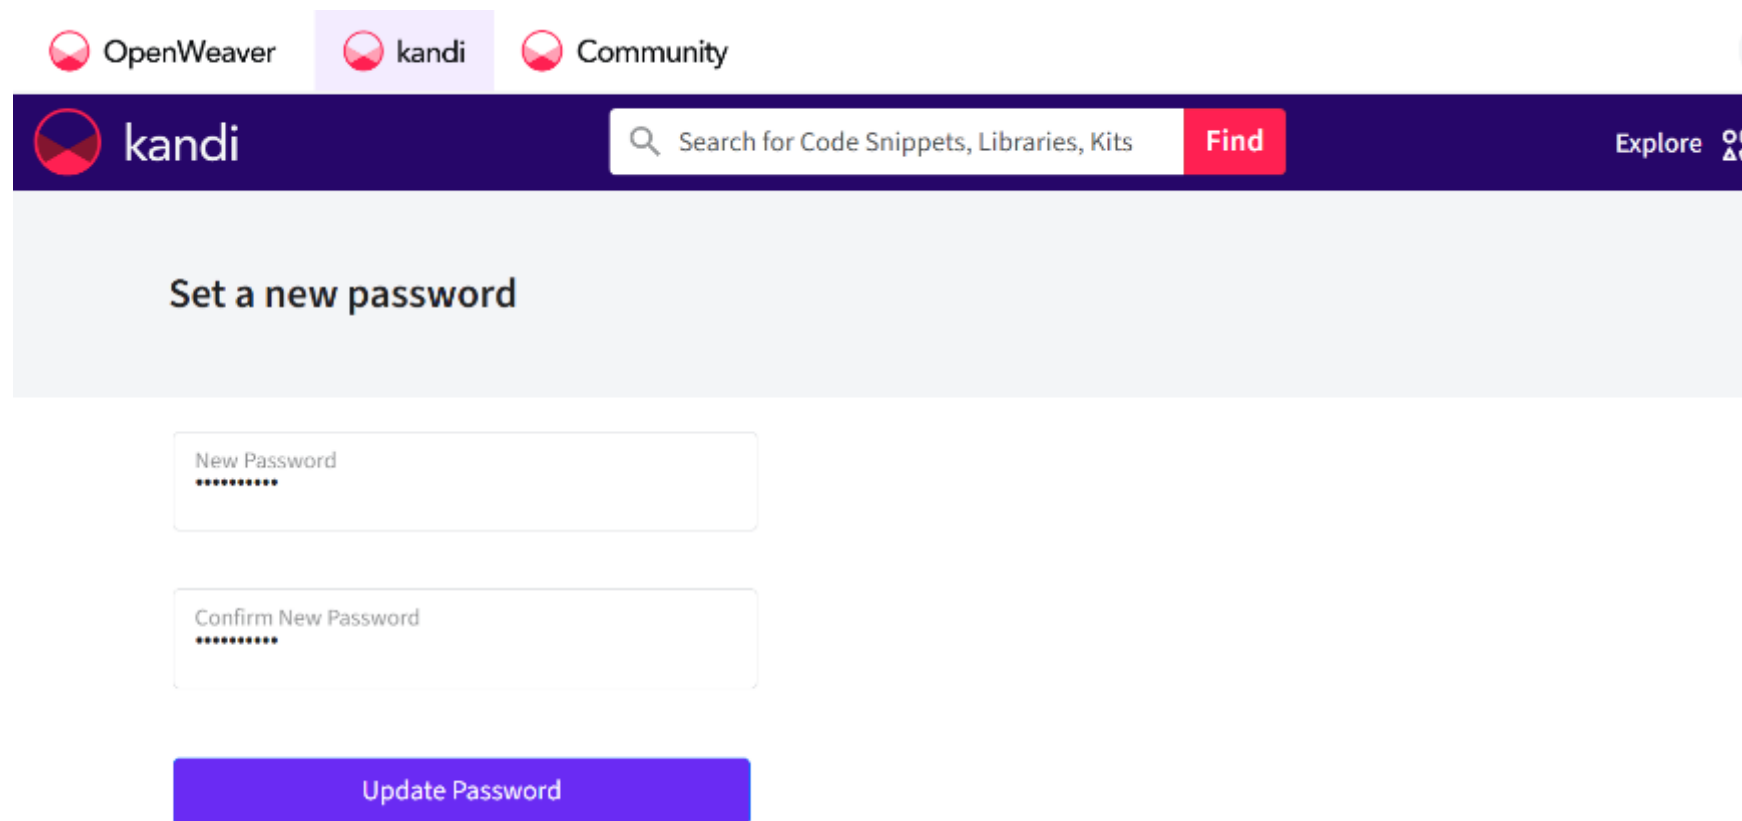

STEP 5: Check your email – you would have received an email from **kandi Support** with a password reset link. Check your spam folder if you are unable to find the email in your inbox.

STEP 6: On clicking the link, you will be prompted to **set a new password**. Set a new password with a minimum of 8 characters having a mix of letters and numbers.

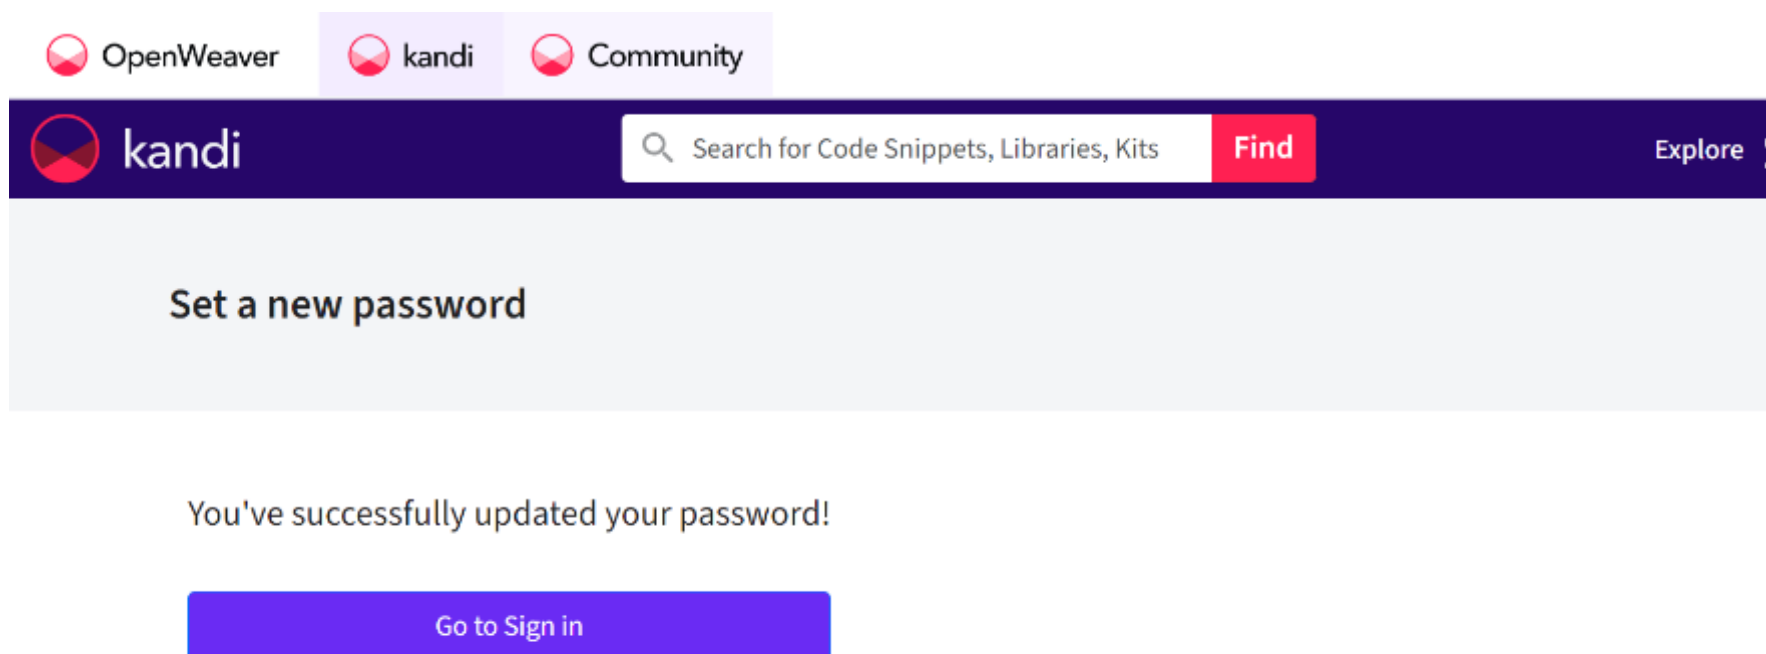

A screenshot of the 'Set a new password' page on the kandi website. The top navigation bar includes 'OpenWeaver', 'kandi', and 'Community' tabs. Below this is a dark blue header with the 'kandi' logo, a search bar with the placeholder 'Search for Code Snippets, Libraries, Kits', a red 'Find' button, and an 'Explore' link. The main content area has a light blue background with the heading 'Set a new password'. Below the heading are two input fields: 'New Password' and 'Confirm New Password'. Between these fields are two bullet points: 'At least 8 characters.' and 'Mix of letters and numbers'. At the bottom is a purple 'Update Password' button.

STEP 7: Enter and confirm your new password and click on **Update Password**. You should see a message confirming your password has been successfully updated.

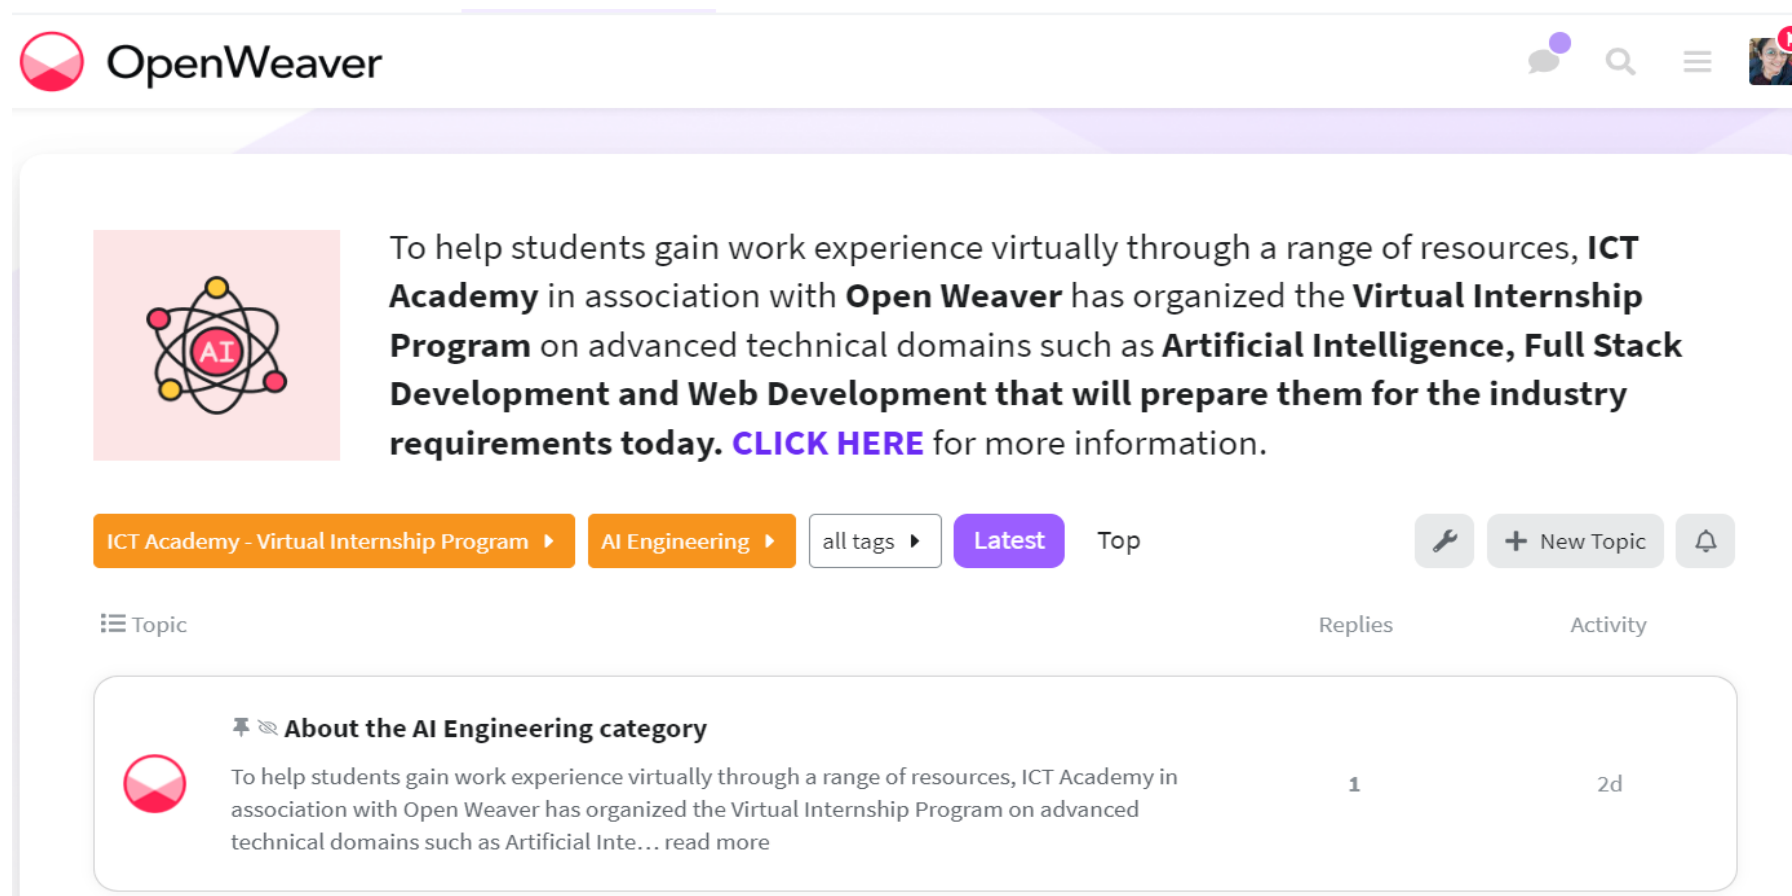

The screenshot shows the Kandi web interface. At the top, there are three tabs: 'OpenWeaver', 'kandi' (selected), and 'Community'. Below the tabs is a dark blue header with the Kandi logo, a search bar with the placeholder text 'Search for Code Snippets, Libraries, Kits', a red 'Find' button, and an 'Explore' link. The main content area has a light gray background with the heading 'Set a new password'. Below this heading are two input fields: 'New Password' and 'Confirm New Password', both with masked characters (dots). At the bottom of the form is a blue button labeled 'Update Password'.

STEP 8: Go ahead and sign in using your registered email address and the new password you just set.

This screenshot shows the same Kandi web interface as the previous one, but with a success message. The heading 'Set a new password' is still present. Below it, the text 'You've successfully updated your password!' is displayed. At the bottom of the form is a blue button labeled 'Go to Sign in'.

STEP 9: On signing in, you will have access to your **AI Engineering Virtual Internship Hub!** This is your destination for all AI Engineering internship details, communication and learning material. So, look no further!

STEP 10 : BOOKMARK this page! Attend live bootcamps, participate in exciting quizzes, complete your coding projects and collect and showcase your BADGES all through!

ALL THE BEST!
